

MATERNAL & CHILD NUTRITION

Posted on April 3, 2018 by CHD Group

Category: [Portfolio](#)

Women and children are the most vulnerable groups in displaced communities; especially in remote areas. CHD has helped in reducing the burden of malnourished children by enhancing nutrition among children and women around the spectrum and across the nation. Some of them have emerged as a best practice in the country. Core Focus:

- a. Decreasing Severe Acute Malnutrition
- b. Decreasing Moderately Acute Malnutrition & under-nutrition to realize a malnutrition free world.
